OBJECTIVE

Computer Programming student seeking a software/web development internship to apply strong foundations in C++, JavaScript, and SQL. Demonstrated technical aptitude through successful development of a restaurant management system and clinic database. Combines analytical problem-solving skills with practical coding experience to deliver efficient solutions. Eager to contribute programming knowledge and project experience while gaining hands-on industry exposure.

SKILLS

• Programming Languages:

Proficient: C, C++, JavaScript, HTML/CSS, mySQL | Learning: Python, Node.js, React, SwiftUI

• **Development Tools & Platforms:** Version Control: Git, GitHub | IDEs: Visual Studio Code, Xcode |

• **Technical Competencies:** Web Development: Responsive Design, DOM Manipulation, SEO |

Database: MySQL, Data Modeling | Software Development: Object-Oriented Programming,

Data Structures, Algorithms | Problem-Solving: Debugging, Code Optimization, Technical Documentation

EDUCATION

Seneca Polytechnic - Toronto, ON.

Present

Computer Programming and Analysis - Advanced Diploma

- GPA: 3.6/4.00, Third Semester
- Object-Oriented Programming (C++): Developed multiple console applications. (refer to 2nd page)
- Web Development: Created responsive websites using HTML5, CSS3, and JavaScript. (refer to 2nd page)
- Database Design: Designed and implemented relational databases using SQL. (refer to 2nd page)

Lasalle College - Montreal, QC.

Jan 2018 - May 2021

Business Management Diploma

PROJECTS

HTML/CSS/JavaScript Project - Toronto, ON.

Sep 2024 - Dec 2024

HouseBeat Music Catalog Web Application - www.seifi.dev/musicApp

- Developed a responsive single-page web application for browsing and managing electronic music artists and tracks using JavaScript.
- Created form validation and submission handling for new artist requests using Fetch API and async/await.
- Built custom CSS styling with responsive design, dark mode support, and modern card-based UI.

Oracle mySQL Project - Toronto, ON.

Sep 2024 - Dec 2024

Food Delivery System Database Project

- Led a 6-person team in designing and implementing a comprehensive database system for a food delivery platform using SQL.
- Created complex SQL views for business analytics including order tracking, driver performance metrics, and promotional campaign effectiveness.

EXPERIENCE

World Of Maya - Montreal, QC.

Feb 2021 - Dec 2024

COO & Digital Content Coordinator

- Developed and launched company's e-commerce platform using Shopify, implementing custom JavaScript solutions for improved user experience and achieving 35% increase in online sales.
- Architected and maintained company's web presence, including responsive design implementation and regular performance optimizations.
- Implemented SEO best practices and technical optimizations, leading to 40% increase in organic traffic.

continued

EXPERIENCE

Frenzr Social Media Agency - Montreal, QC.

Aug 2021 - Jun 2023

Web Content Developer & Social Media Coordinator

- Implemented custom JavaScript solutions for social media content scheduling and analytics tracking, improving team efficiency by 25%.
- Developed automated data collection scripts to track campaign metrics, processing data for over 100K impressions.
- Built interactive dashboards using HTML/CSS and JavaScript to visualize campaign performance metrics.

Freelance - Montreal, QC.

Mar 2018 - Aug 2021

Web Developer

- Developed 5+ custom websites using HTML, CSS, and JavaScript, integrating with CMS platforms.
- Implemented responsive design principles and cross-browser compatibility, ensuring 99% uptime.
- Performed technical SEO optimizations, including site speed improvements implementation.
- Created technical documentation and video tutorials for client training, reaching 10K+ views.
